- 3) the individual financial statements of ENERGA S.A. have been prepared, in all material aspects, on the basis of properly kept books of account in compliance with the provisions of the Accountancy Act.

VI. EVALUATION OF THE MOTION OF THE MANAGEMENT BOARD REGARDING DISTRIBUTION OF THE NET PROFIT FOR 2022

Based on § 16.1 (1) of the Company's Articles of Association, in conjunction with Article 382 § 3 and 395 § 2 (2) and Article 396 § 1 and 5 of the Commercial Companies Code, the Supervisory Board positively assesses the motion of the Management Board for the General Meeting on transferring of the Company's net profit of PLN 49,875,171.18 for the 2022 financial year to increase the supplementary capital.

VII. REVIEW OF THE COMPANY'S SITUATION, INCLUDING REVIEW OF INTERNAL CONTROL, RISK MANAGEMENT, COMPLIANCE AND INTERNAL AUDIT SYSTEMS

Assessment of the situation of the Company and its group

The Supervisory Board positively assesses situation of the Company and of the ENERGA Group ("ENERGA Group", "Group"). In the 2022 financial year, there were no events that would threaten continuation of operations or deteriorate the financial situation of the Company and of the Group. Both ENERGA S.A. and the ENERGA Group achieved very good financial results in 2022. The stable financial position of the Company is confirmed by the long-term ratings the Company has received:

- Moody's Baa2 with a positive outlook (in October 2022),
- Fitch BBB+ with a stable outlook (in November 2022).

In the opinion of the Supervisory Board, the actions taken by the Company in 2022 had a positive impact on the increase in the financial results of the Company and of the Group and created solid foundations for further development. In order to carry out this assessment, the Supervisory Board read the analyses of the results achieved by the Company and by the Group in various periods of 2022.

The Supervisory Board positively assesses the implementation of the business strategy in 2022, which was described in the "Strategic Development Plan of the ENERGA Group for

2021-2030 ” and “Multi-Annual Plan of Strategic Investments of the ENERGA Group for 2021-2030”.

In 2022, the Company communications with equity market participants took place by phone and online. The decision of the Extraordinary General Meeting of the Company of 29 October 2020 on withdrawal of the Company's shares from stock trading was the main reason for resignation from holding the results conferences and the reason why ENERGA Group representatives opted out of participation in investor conferences held by brokers. On a cyclical basis the Company published 5 periodic stock reports and 51 current stock reports.

Evaluation of internal control, risk management, compliance and internal audit

Internal audit is an important element of the internal control system at ENERGA S.A. Its responsibilities at the Company are carried out by the Audit and Internal Control Office. Employees of the Audit and Internal Control Office perform audit and control tasks (scheduled and ad hoc) and advisory tasks in ENERGA Group companies, and supervise and co-ordinate the work of internal audit units within the ENERGA Group. The authority and responsibilities of internal audit and internal control in the ENERGA Group cover all the areas of operations subject to relevant applicable laws. The Audit and Internal Control Office also carries out tasks in the risk area.

In 2022, the Audit and Internal Control Office supported operations of the Company by identifying and assessing significant risks, threats and deficiencies in the design and operation of the existing internal control system in the ENERGA Group, including by issuing recommendations the implementation of which helped secure and enhance the organisation and its value. The results of completed audit and control tasks were communicated to companies' management and supervisory bodies, including the Audit Committee and the Supervisory Board, providing them with information on audited areas. The auditors pointed out to those areas which they believed required corrective actions or improvements.

Audit and control tasks were performed in accordance with the ENERGA Group's Internal Audit Charter, Internal Audit Policies in the ENERGA Group, Internal Control Policies in the ENERGA Group as well as based on the International Standards of the Professional Practice of Internal Auditing.

The Audit Committee of the Supervisory Board remained in touch with the Head of the Audit and Internal Control Office, received updates on audit and control tasks being carried out, reports on completed audits and controls, as well as the annual report on the operations of the Audit and Internal Control Office.

The Audit and Internal Control Office assessed the internal control, risk management and compliance systems for the year 2022 (hereinafter: Assessment). The purpose of the Assessment was to strengthen the system by identifying opportunities to implement current best practices in internal control, risk management and compliance, while identifying the areas where the system should be reinforced due, among others, to changes taking place in the Company, the ENERGA Group and the external environment.

The Assessment was based on the COSO 2013 Internal Control – Integrated Framework standard which defines 5 components of internal control:

- 1) control environment,
- 2) risk assessment,
- 3) control,
- 4) information and communication,
- 5) monitoring.

The 2022 Assessment included analysis of the solutions adopted at ENERGA S.A. in internal control, risk management and compliance with regard to identified risks as well as designed and implemented control mechanisms.

The 2022 Assessment shows that the individual system components were mostly designed, implemented and documented according to best market practices in this area and in many cases provide optimum risk mitigation. Despite the high assessment of individual components, there is still room for improvement and for further implementation of best market practices in internal control, risk management and compliance. Therefore, recommendations were formulated as part of this year's Assessment, which will contribute to improvement of the internal control system of ENERGA S.A.

The Company's current activity, initiatives and undertaken projects form an important element impacting the Assessment and strengthening internal control, risk management and compliance. Those include activities undertaken, among other things, by the units responsible for risk management, compliance and internal audit. When taking measures to strengthen the system, the employees of ENERGA S.A. not only continued the existing practices or recommendations. They came up with their own initiatives and projects in that respect, which were implemented in 2022. This testifies to the organisation's maturity in terms of the development of controls to mitigate the risks that, if materialising, could have a negative impact on performance of the internal control, risk management and compliance system. In 2022 employees of the Company also performed the tasks related to the Business Integration and Transformation Programme of the ENERGA Group and PKN ORLEN.

As part of the development of the Integrated Risk Management System in the ENERGA Group, the ENERGA Group Event Register was transferred to a new IT system. Work was also continued on developing the risk management methodology and adapting the activities of risk owners to the corporate risk management model. The risk unit also participated in the process of implementing recommendations on climate risk management. In addition, risk management training was conducted and steps were taken to implement a risk management system in another ENERGA Group company.

In 2022, the Company continued its intensive compliance management activities. The Compliance Team, which operates within the ENERGA S.A. Legal Office, under the leadership of the Management Board Representative for Compliance Management, supervises and coordinates the proper functioning of the Compliance system in the ENERGA Group as part of the work related to its maintenance and development.

The Compliance System in the ENERGA Group consists of mutually related organizational and process elements, among others:

- uniform and structured approach to compliance management in the ENERGA Group, based on the Compliance Management Policy and Methodology,
- an effectively functioning organisational structure of the Compliance System in ENERGA Group entities, with ENERGA S.A.'s supervisory and coordinating role,
- identification of the so-called compliance areas (sets of key requirements grouped into thematic areas),
- designation of the so-called requirement owners responsible for their implementation (compliance) in ENERGA Group entities,
- implementation of a compliance management process which identifies requirements, assesses and monitors compliance (including planning and implementation of corrective actions, if necessary),
- dedicated tools supporting users of the Compliance System in the implementation of tasks as part of the ongoing support of the compliance management process in the ENERGA Group and periodic review of the compliance management process in the ENERGA Group,
- communication and reporting of compliance management results - at the level of Group entities, individual compliance areas and the ENERGA Group,
- a wide range of training and communication activities to raise employee awareness in the area of compliance,

is consistent and integrated with other key elements to ensure compliance in the ENERGA Group, including e.g. Risk Management System, audit and internal control processes, legal service processes and the function of social responsibility and ethics in business.

In January 2023, the ENERGA S.A. Management Board Representative for Compliance Management together with the Director of the Legal Office of ENERGA S.A. provided the Company Management Board with the ENERGA S.A. Compliance Report and the ENERGA Group Compliance Report showing the compliance status of the Company and the Group against key requirements identified in 2022. Both Reports were also provided to the Audit Committee of the Supervisory Board.

It is worth noting that the implemented solutions in the Compliance System are compliant with the best market practices in this area, as well as meet the guidelines arising from, among others, the "Best Practices of WSE Listed Companies 2021", according to which listed companies should, among others, maintain an effective legal compliance supervision system appropriate to the company size, and the type and scale of operations. Implementation of the Compliance System in the ENERGA Group was also recognised with the Compliance Award 2020 in the category "Compliance Idea of the Year 2020" by the Compliance Institute (a scientific and training institution of Compliance academics and experts), and since 2020 has been recognised as a model CSR practice in the Responsible Business Reports in Poland, annual publications of the Responsible Business Forum Association describing best practices at Polish companies in the area of corporate social responsibility.

The Supervisory Board positively assesses the internal control, risk management and compliance systems as well as internal audit performance at the Company and the ENERGA Group.

VIII. ASSESSMENT OF THE DISCHARGE OF COMPANY OBLIGATIONS TO COMPLY WITH CORPORATE GOVERNANCE PRINCIPLES

In 2022, the Company and its corporate bodies followed the corporate governance principles set out in Best Practice for WSE listed companies 2021 (hereinafter: "Good Practice 2021") adopted by Resolution No. 13/1834/2021 of the Supervisory Board of the Warsaw Stock Exchange of 29 March 2021. The document is available on the WSE website.

On 22 April 2022 the Company published the current report in the EBI system, reporting on its failure to apply 11 rules (current report No. 1/2022, available on the Company's website in the Best Practices for WSE Listed Companies tab).

On 28 April 2023, the Company published the ENERGA SA's Management Board Report on the activities of the ENERGA Capital Group and ENERGA SA in 2022, along with statements

on the application of corporate governance principles, published under § 70.6 (5) of the Regulation of the Minister of Finance of 29 March 2018 on current and periodic information published by issuers of securities and the conditions for recognising as equivalent information required by the law of a non-member state.

The statement provides that as at 31 December 2022 (analogically to the situation described in the aforesaid current report), the Company failed to apply 11 rules, namely:

- 1.4.2. - as part of the ongoing integration of the Energa Group with the ORLEN Group, the process of unification of the methodology for calculating remuneration-related ratios is under way; therefore, the ratio mentioned in this rule is not published on the corporate website. The Company complies with the applicable national laws and regulations, including the Labour Code; moreover, the Company has taken measures and implemented good practices by applying internal policies to ensure the application of the principles of equality, respect and prevention, among others: Policy Against Mobbing and Discrimination in the Energa Group, Code of Ethics of the ORLEN Group, Policy for Compliance Management in the Energa Group, Policy for the Management of Employee Potential of the ORLEN Group. Furthermore, regular audits and improvement and remedial actions are carried out at the company.
- 1.5. - the non-application of the rule stems from the fact that the Company classifies the data indicated as sensitive information constituting trade secrets and does not publish separate statements in this respect.
- 1.6. - in connection with: (i) resolution of the Extraordinary Meeting of Energa SA of 29 October 2020 to withdraw the Company's shares from trading on the regulated market operated by the WSE, (ii) reduction on 30 November 2020 of the number of the Company's freely floated shares below 10% and (iii) WSE's decision to remove the Company's shares from all stock indices, effective after the session held on 3 December 2020, the decision was made to renounce from organisation of a conference for the investors;
- 2.1., 2.2 and 2.11.6.- the Company's employee diversity policy is presented in several internal documents. However, it has not been adopted in a document form by the Supervisory Board or the General Meeting. Despite that, gender diversity has been ensured at an appropriate level in the Company's bodies: as at 31 December 2022, there were two women and three men on the Management Board, and six women and three men on the Supervisory Board. The Company seeks to ensure diversity on its bodies through the selection of diverse and professional managerial and supervisory team. Moreover, the Company respects the dignity of every person regardless of race,

- nationality, religion, gender, age, education, professional position, sexual orientation, degree of disability or political affiliation, and does not accept any form of discrimination.
- 2.11.5. - an assessment of reasonableness of the expenditure referred to in Rule 1.5. is carried out by the Company's Supervisory Board. However, due to the non-application by the Company of Rule 1.5. (as explained above), the annual report of the Company's Supervisory Board, presented to the Company's Ordinary General Meeting, does not contain the above assessment.
 - 4.1. - The Company in 2021 made it possible for shareholders to participate General Meetings by means of electronic communication (e-meeting), which was caused by the restrictions on holding meetings introduced in connection with the SARS-CoV-2 epidemic. However, due to: (i) the abolition of the above-mentioned limitations, (ii) the existence of various types of risk related to the organization of e-meeting, such as the risk of transmission disruptions, the risk of communication take-over or the risk of technical problems, (iii) the fact that the vast majority of the share capital is present directly at the General Meeting, (iv) additional costs of organizing the e-meeting, the Company decided not to apply this principle. It should be noted that failure to apply the above-mentioned principle does not pose a risk of limiting or hindering shareholders from direct participation in General Meetings and exercising voting rights, as these meetings are held at convenient hours at the Company's seat.,
 - 4.9.2. - as provided for in the Company's Articles of Association, a candidate member of the Supervisory Board intending to perform a function on the Audit Committee submits to the Company, before their appointment to the Supervisory Board, a written declaration of fulfilment of the statutory conditions listed in that rule. A candidate is not required to submit a declaration as to the existence of any actual and significant relationship of the candidate with a shareholder holding at least 5% of the total number of votes in the Company.
 - 4.11. - Members of the Company's Management Board take part in General Meetings and provide expert answers to the questions asked at the General Meeting. At an Ordinary General Meeting ("OGM"), the Company's Management Board answers questions concerning the financial results and other significant information contained in the financial statements and the report on activities for the past financial year, which is subject to approval by the OGM. The Company's Management Board does not present financial or non-financial data at the OGM,
 - 6.4 - The guideline rules of remuneration of the Supervisory Board members are laid down in the Remuneration Policy for Members of the Management Board and Supervisory Board of Energa SA adopted by the Company's Ordinary General Meeting.

The remuneration of the Members of the Company's Supervisory Board does not depend on the number of meetings held. The remuneration is fixed and paid on a monthly basis. Whereas the Members of the Supervisory Board Committees are not paid any additional remuneration.

On ENERGA S.A.'s investor relations website under the corporate governance tab, there is a set of downloadable documents, including current reports.

The Supervisory Board of ENERGA S.A. read the results of the analysis of the Company's application of the rules of Best Practices 2021 carried out by organisational units of the Company.

The Supervisory Board finds that the Company correctly fulfils its disclosure obligations regarding application of the corporate governance principles arising from the Stock Exchange Regulations and provisions on current and periodic information to be disclosed by securities issuers.

IX. EVALUATION OF IMPLEMENTATION BY THE COMPANY'S MANAGEMENT BOARD OF INFORMATION OBLIGATIONS SET OUT IN ARTICLE 380¹ OF COMMERCIAL COMPANIES CODE

The Supervisory Board positively assesses the fulfilment by the Management Board of the information obligations specified in Article 380¹ of the Commercial Companies Code. When making the assessment, the Supervisory Board took into account the reliability, completeness and timeliness of the information provided.

X. ASSESSMENT OF THE MANNER OF PREPARING OR SUBMITTING TO THE SUPERVISORY BOARD BY THE COMPANY'S MANAGEMENT BOARD INFORMATION, DOCUMENTS, REPORTS OR EXPLANATIONS REQUESTED UNDER ARTICLE 382 § 4 OF COMMERCIAL COMPANIES CODE

In the financial year 2022, the Supervisory Board did not request any information, documents, reports or explanations from the Company's Management Board pursuant to Art. 382 § 4 of the Commercial Companies Code.

XI. INFORMATION ON THE TOTAL REMUNERATION PAYABLE FROM THE COMPANY FOR ALL RESEARCH COMMISSIONED BY THE SUPERVISORY BOARD TO THE ADVISORS OF THE SUPERVISORY BOARD IN 2022

In the financial year 2022, the Supervisory Board did not select the Advisor in question in Article 382¹ of the Commercial Companies Code and therefore the Company did not incur any costs on this account. In the financial year 2022, the Supervisory Board appointed a permanent

expert of the Supervisory Board, who performed consultative functions for the Supervisory Board in the period from 2 April to 5 May 2022. The total remuneration due to the permanent expert in this respect amounted to PLN 7,486.43 gross.

XII. OPINION ON THE ECONOMIC VIABILITY OF THE COMPANY'S EQUITY INVESTMENTS IN OTHER COMMERCIAL COMPANIES

Based on § 16.1 (4) of the Company's Articles of Association, the Supervisory Board positively assesses the economic viability of the Company's equity investments in other commercial companies during 2022, as described in detail in the Consolidated Financial Statements for the year ended on 31 December 2022.

XIII. EVALUATION OF WORK OF THE SUPERVISORY BOARD OF THE COMPANY

The year 2022 was a period of Supervisory Board's intense work and discharge of its obligations arising from law and the Company's Articles of Association as well as "Best Practices of WSE Listed Companies 2021". In 2022, the Supervisory Board held 12 meetings, and the Committees of the Supervisory Board held 9 meetings. During its meetings, the Supervisory Board and its Committees adopted a total of 237 resolutions. The detailed scope of work of the Supervisory Board and its Committees in 2022 is described in Parts II and III of this Report.

Members of the Supervisory Board represent high professional qualifications in the fields of economics, finance and law, as well as many years of experience in serving on management and supervisory bodies in capital companies, which are required in order to serve as member of a supervisory body. Due diligence and commitment, as well as the extensive expertise and experience of Board Members, guaranteed effective and efficient supervision over the Company's operations, a brief description of which is provided in this Report.

As part of its supervisory and monitoring responsibilities, the Supervisory Board acted on the basis and within the limits of law, always for the good and in the interests of the Company.

Members of the Company Management Board and Company employees responsible for the matters discussed provided the Supervisory Board with all the information and explanations required by the Supervisory Board to perform its duties. Given the need for efficient preparation of materials for consideration by its Committees and meetings, and for timely decision making, the Supervisory Board also co-operated with the Management Board on a working basis, through direct daily communications between the two bodies of the Company.

The Supervisory Board finds that its members performed their responsibilities well in 2022. According to the Supervisory Board, its work during meetings and in direct communications

with the Management Board was highly efficient, transparent and rational, which ensured professional substantive support and effective supervision.
